

re:print

PRINT WITH RENEWABLE ENERGY

PROGRAM GUIDE

Green-e®

Businesses are more concerned than ever about the impact of their operations. With Green-e **re:print**, your business has the opportunity to print sustainably and support renewable energy. Reduce your impact and think Green-e **re:print**!

What is re:print?

Green-e certifies printers and paper lines that use renewable energy like solar, wind, and biomass energy. When your business produces printed materials, choosing both a Green-e printer and paper line will reduce your companies impact and communicate your commitment to sustainable printing.

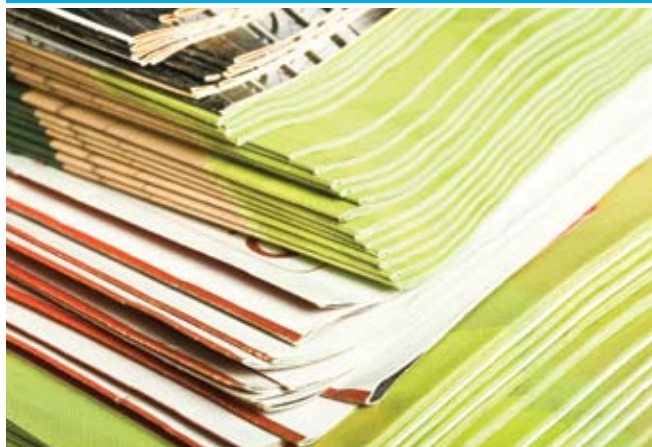

Paper manufactured using 100% certified renewable electricity

Paper printed using 100% certified renewable electricity

What Types of Printed Collateral are Eligible?

- Annual reports
- Catalogs
- Company brochures
- Magazines
- Books
- Sustainability reports
- Company mailers
- And more!

How do I incorporate the Green-e logo into my business's printed materials?

- 1 Find** a Green-e Certified Printer
(www.green-e.org/reprint)
- 2 Request** that the printer use a Green-e Certified Paper Line
(www.green-e.org/reprint)

What are the benefits of using re:print?

- Reduce impact
- Communicate responsibly
- Distinguish your business
- Connect with your customers
- Support renewable energy

CERTIFICATION YOU CAN TRUST

Established in 1997, Green-e is North America’s leading independent certification and verification program for renewable energy and greenhouse gas emission reductions in the retail market. **Green-e Energy** is the nation’s leading independent certification and verification program for renewable energy. **Green-e Marketplace** is a unique certification program that recognizes organizations using renewable energy and enables them to demonstrate their environmental commitment through the use of the nationally recognized Green-e logo. **Green-e Climate** is a voluntary certification program that sets consumer-protection and environmental-integrity standards for greenhouse gas emission reductions sold in the voluntary market
